

Floats

- يجعل العنصر خارج الـ Normal flow.
- يجعل النصوص والـ Inline elements تلتف حول العنصر.
- الأب (Parent) لن يشعر بالعنصر ولن يكون قادر على ضبط ارتفاع (height) العنصر.

Normal Flow	Absolute Positioning	Floats
<ul style="list-style-type: none">-Default positioning-Element is "in flow"-Elements are simply laid out according to their order in the HTML code <div>position: relative</div>	<ul style="list-style-type: none">-Element is removed from the normal flow: "out of flow"-No impact on surrounding elements, might overlap them-We use top, bottom, left, or right to offset the element from its relatively positioned container <div>position: absolute</div>	<ul style="list-style-type: none">-Element is removed from the normal flow: "out of flow"-Text and inline elements will wrap around the floated element-The container will not adjust its height to the element <div>float: left float: right</div>
